DERROSED TO MES. L. M. KEITT ON THE ANNIVER-BARY OF THE BEATH OF COLUMN KEITT ON THE FIELD OF BATTLE OF JUNE 2D.

With a heroine's nature fair mourner inspired,
Bear calmly the sacrifice fate has required—
Ah I cease now to weep for thy hero laid low,
Ah I cease now to weep for thy hero laid low,
His course closed in glory, are bright with its glow;
The cause which he bled for, sublime in its truth,
He had lived for and loved from his earliest youth;
He has patriot's arder he furthered its good,
And for it he shed all his ripe manhood's blood.
Of a bright higher sphere an approved worthy guest,
He has saunt as a bero should shat to his rest—
Left the field of his toil, a lot few can claim,
With a harvest of honors, and chaplet of fame.

Then weep not, fair mourner, thy here's at rest in his senste and battle-field glories all dressed; sigh fleaven restricts for ends man'ex not know, By limit all joys vouchasied here below. Ind the large of bliss it was filled to the brim, he world gave him honger and hame for its part that was left him to wish for when you gave him your hast was left him to wish for when you gave him your heart?

NEW YORK. May 29.—SPIRITS TURPENTINE.—In the early part of the week some little business was done at extreme prices, but the large amount aftest, and nearly side, restlicted transactions and caused a decline, as rapid as the late advance. The demand for configuration in remarkably light, and it as one the involvedge of the large wants of exporters in Wilmington which sustains the market, even at its present point. The influence of interested parties in of course brought to bear in ravor of lower prices, and as we have supple stock (present and prospective) to supply current wants, we do not anticipate any immediate acvance. The sales are 1300 bhis at 49c down to 45% on spot ex dock, modding about 200 transfer from all 15 of the course to arrive.

and 11%d for Orieans—declined %a%d—and closed steadily at 11%a11%d for uplands and Orieans. We see by the weekly report that the arrivals have been nearly 100,000 bales this week, and under the circumstances, prices have been well u aintained. Private advices from Marchester report a strong, bealthy market. The long looked for improvement, caused by the small production, appears to have at last made its appearance.

We cabled to Liverpool to ascertain the correct figures of the amount of cotton affoat, and have an answer this morning. The amount affoat is 602,000 bales, and not 562,000 bales, as given by the Associated Press report. It will be noticed that there is now a deficiency in the visible supply of 71,588 bales, as compared with 1868. The reports about the growing crops received by mail this week continue unfavorable. There has been too much rain, and the temperature is remarkably low for the season. For future delivery there has been but little done. 200 low middling sold for July delivery at 27%a27%c, and 15.3 middling November and December at 23c have been received, and much would be taken at 24c, but, owing to the backward appearance of the crop so iar, planters are not disposed to sell at present.

There has been received at this port since 1st September, 1,979 849 bales, of which exporters have taken 1,351,671 bales, spinners 522,269; and the stocks are 106,569 larger than at that date. Deficit in shipments to Liverpool 279,561 bales.

"I WENT TO THE LAND OF STEADY HABITS." I wanted to hand several "bricks" down to pos terity, and was told by father that with a New England girl tor a wife, I could raise more children, grow more onious, skin more eels, sing more psalms know more of what was going on in the neighbor hood, hear more scandal, sleep less nights, have more relatives, est more beans, love myself and hate others more, and get more out of a dollar, than any other sort of woman in this happy country so-called

PLANTATION BUTTERS. Is made from pure St. Croix Rum and Calisaya Bark (known the world over for its curative properties), and will fortify the system against disease,

caused by change of water and diet. If you are inelined to dyspepsia, try #. If you have the chills and fever, or any kindred disease, by all means take Plantation Bitters. They are sold by all druggists

AND HE HAD A FEMALE CHILD, Whose name was Heva Brightwater, and who was wenty-nine years old; who wore red stockings, red garters, metal tipped shoes, green spectacles, and the prettiest red hair the world ever set eyes on or into. Hexa, a true New England gal, chewed wads of pine gum, and sweetened her broth with onions. Hexa wasn't so much handsomer than a doll as to make the coll faint, but she was intelligent; in fact, intelligence was her best hold but one; she was great on making baby garments, and had her trunks full, packed away, that she might be ready as willing when the evil hour drew nigh, as she trusted it would from year to year.

Distemper, Fourts, Founder, Loss of Appetite and Vital Energy, &c. TO THE LADIES BUT KNEW What thousands of them are constantly relating to us, we candidly believe one half of the weakness. prostration and distress experienced b; them would

JAMES MARSH, Esq., No. 159 West First-street, New York, says he has three children. The first two are weak and puny, his wife having been unable to nurse or attend them; but she has taken Plantation Bitters for the last ten years, and has a child now 18 onths old, which she has nursed and roared berself, and both are hearty and well. Plantation Bitters is invaluable to mothers.

VALTER, MY BOY, Here comes a man who was once rich. He had friends, and money, and a loving family, and position, and influence, and self-respect, and integrity, and a future of usefulness before him. But, my boy, he don't look like it now. He was elected to an important office. He forget the lessons his good mother taught bim, and was asked by designing politicians to sell his vote to a party of swindlers; he could not for the life of him give articulation to that

HOW OFTEN DO WE HEAR THE COMPLAINT, RICE THRESHERS AND MILLS OF EVERY From mother and father, that the son or daughter i not well; that they have no appetite; that they feel languid: that the head aches all the time; that they SHAFTING, PULLEYS AND GEARING are growing thin and feeble, and that they have no life nor energy left. And the questions are often asked, What shall I do for them? What shall I give CASTINGS OF EVERY KIND IN IRON OR them? Our answer is, let them try Plantation Bitters moderately, three times a day, and our work for it they will recover. We guarantee to furnish ENGINES and BOILERS

little word, and so he fell.

AND HERE VALTER, IS A YOUNG MAN, Just like you and us, my boy. He has wit, sense education, intelligence, friends, ambition, and is loved. He has a knowledge of the world, acquired by mixing with its people. He has ambition and Asheroft's Low-water Detector, the same fie'd in which to win honor, fime and distinetion, as had Franklin, Fulton, Morse, and a host THE ONLY PERFECT SECURITY AGAINST of others. He is naturally smart, but, Valter, my bry, as he meets us do you see the excess of mo's ture in his eye, the httle puffy ridge under it the gradual turning of the beautiful corners of the mouth his mother so loved to kiss. These, my boy, tell a sad tale of early shipwreck, of disease, of pr mature death, of neglected and squandered gifts.
